# HEY!

We are Dan and Emma, husband and wife team and founders of Tranquil Waters Health and Wellness Retreat.

After being multiple business owners, trapped in the chaos of the never-ending rat race, locked in by successful business that was delivering only unhappiness and stress, we eventually took a step back. A step back that allowed us to look within, be true to ourselves and cultivate a life and business that aligned with us, our values and our dreams.

Selling our successful fitness club made space for us to unleash our beautiful health and wellness retreat and ignite a passion for helping other business owners and managers to bridge the gap between personal well-being and business growth.

With 25 years combined experience in the health and wellness sector (along with being stressed business owners ourselves for many years!), we now help others to cultivate happiness and success in themselves and their team.

“ Absolutely amazing, and highly recommended.  
Dan and Emma have put together a hugely effective, and excellent value for money experience.  
Better than any spa day I've done, and an invaluable investment in my wellbeing.  
Outstanding, thank you. - Lynn
