# GREETINGS!

We are Dan and Emma, husband and wife team and founders of Tranquil Waters Health and Wellness Retreat.

After being multiple business owners, trapped in the chaos of the never-ending rat race, locked in by successful business that was delivering only unhappiness and stress, we eventually took a step back. A step back that allowed us to look within, be true to ourselves and cultivate a life and business that aligned with us, our values and our dreams.

Our healing journey came just after COVID hit, when we we knew we had to assist others in their healing and wellbeing journey. Drawing on our entrepreneurial background, we've managed to find this beautiful fusion of business savvy and holistic wellbeing practices.

Our journey has hammered home the importance of balancing success with wellbeing and staying true to oneself. Now, through coaching and speaking engagements, we're helping others navigate towards a fulfilling life, centred on self-awareness and growth.

Strangely we just followed the bread crumbs that were being left out for us...and here we are. Our journey of awakening!

# THE EXPERIENCE

*Welcome to a journey unlike any other, where the very essence of your being is poised to awaken to its fullest potential! You've stumbled upon us for a reason—to embark on a transformative leap that will forever be a changing point in your life.*

*There's a noticeable shift happening, challenging our constant pursuit of doing more and being better. It's a call to break free from societal pressures and embrace our true selves—to simply exist, authentically.*

*Picture realising that each of us has the power to create our own path, navigating life as both human and divine. This revelation sparks a fire within, lighting up endless possibilities and untapped potential.*

## DID YOU KNOW?

*Awakening isn't just an individual journey—it's a collective movement, a reunion of souls rooted in our ancestral instinct to live in communities, to share, and to support one another with love and compassion. In a world dominated by competition, this awakening is a reminder of our intrinsic need for connection.*

*As we awaken, we rediscover our interconnectedness, tapping into the universal web that binds us all. Despite the challenges of fear, societal pressures, and negativity, we stand resilient, refusing to let our light be dimmed.*

*Join us on this retreat—a haven where minds find peace, spirits soar, and souls rejoice. Together, we'll raise our vibrations, ignite our passions, and unveil the beautiful mosaic of our true selves.*

*Prepare for a journey of self-discovery, where every moment pulses with the thrill of realizing your fullest potential. The time is now. Are you ready to awaken?*

HAPPINESS

# RETREAT AGREEMENTS

*The main rule is to be authentically you. Too often we wear a mask to 'fit in' the beauty in all of us is that we are all different. We do not wear masks here. If you need to cry, dance, hug, be emotional, go in the woods and scream, sit alone, go for a walk - then do it.*

*We are letting go of what no longer serves us and welcoming the true you.*

*In order for us to be present, we need to let go of the past and stop looking externally for happiness. To be happy within.*

*We are vibin' high on this retreat and we stand by 'The Four Agreements' to spiritual success:*

*Do not judge others  
Be impeccable with your word  
Do not make assumptions  
Always try your best*

*We are your retreat leaders, please speak to us if you have any concerns, need support or guidance at any point. We are here for you.*
